PROFESSIONAL EXPERIENCE

FULL-STACK DEVELOPER, Maker.Tech | Auckland, NZ

Oct 2023 – Jun 2025

- Developed web applications leveraging MACH architecture (Microservices, API-first, Cloud-native, Headless).
- Implemented solutions using React, Next, TypeScript, SASS, GraphQL, Contentful, GCP, AWS, Vercel, and Algolia.
- Maintained and enhanced six client codebases while contributing to the on-time delivery of three projects.
- Collaborated with Developers, QA Testers, and Project Managers to ensure high-quality client outcomes.
- Worked in agile teams, including sprint planning and review sessions.

FULL-STACK SOFTWARE ENGINEER, Easy Crypto | Remote, NZ

Jan 2022 – August 2022

- Rebuilt the Easy Crypto website using React, TypeScript, Next, Chakra UI, and Storybook.
- Delivered accessible, reusable UI components improving codebase consistency, extensibility, and usability.
- Contributed to the development of a new React Native mobile app, based on the functionality of the Easy Crypto website, to capitalise on our users purchasing habits.
- Collaborated in an agile team of Developers and Designers, participating in sprint planning and reviews.

FREELANCE FRONTEND DEVELOPER, PHX Consulting | Remote, NZ

Oct 2021 – Dec 2021

- Rebuilt the client's frontend using React, TypeScript, Next, Chakra UI, and Storybook.
- Delivered reusable, accessible UI components that streamlined development and enhanced user experience.
- Worked alongside an agile team across two time zones, ensuring smooth project execution and efficient delivery.
- Presented progress and outcomes to the client during sprint review sessions.

EDUCATION

FULL-STACK WEB DEVELOPMENT BOOTCAMP, Dev Academy Aotearoa | Auckland, NZ

- Completed an intensive 15-week software development program focused on technical and human skills.
- Built full-stack applications while presenting technical concepts and working in collaborative teams.
- Developed soft skills through sessions on feedback, empathy, and inclusive communication.
- Delivered a final group project, a full-stack app matching users by music tastes with integrated chat functionality.
